

## LABOR PARTY IS GOOD MORNING NOW IN THE FRONT JUDGE—MANY VAGS FINED

CHICAGO, Ill., July 12.—(Associated Press.)—“We must in the future and farmers, railroad men, miners, machinists, molders, etc., in contrast,” said Frank J. Taylor, national secretary of the Labor party of the United States, in his speech to the Labor party convention which opened here Sunday morning. “Then and then only will we have a government of the people, for the people and by the people.”

Secretary Taylor characterized the national Labor party as a “political organization to assemble those who work with hand and brain and who have been scattered as helpless minorities in the old parties under the leadership of the confidence men in big business.”

Secretary Taylor said the “new energy for the workers to continue the building of this great political organization as an as well as the industrial power from the Wall street pirates and return the political and industrial government to its rightful owners—the American people.”

### Farmer Pays Five Prices

“Why should the farmer pay five prices for goods made by the city workers?” he said. “Why should the city workers pay \$30 for bread—the farmer receiving only 10 for the flour it contains?”

“We realize the immensity of this struggle, therefore we ask the support of the farmers of the nation. We know their fight is our fight, and our fight is their fight. With this common understanding, we can unite at the ballot box and sweep from office those who have usurped the political power of the producers and consumers of our country.”

Public ownership and public management of the railroads and the banking business were advocated by Secretary Taylor as fundamental needs of the social structure.

### Want Public Ownership

“When we get that,” he said, “then we can go ahead and do the things that should be done in the way of radically revolutionizing both the system of transportation and the system of banking loans and costs. For these reasons the Labor party has consistently fought for the public ownership of the railroads under the Plumb plan of operation and the national ownership of the banking business.”

State organizations of the Labor party have been formed in 14 states, the secretary reported. He commended Illinois, Indiana, Iowa, Ohio, Pennsylvania, New York, Connecticut, Michigan, Oklahoma, Kansas, Missouri, Wyoming, Utah and Nevada, and mentioned the lay district of California. He added that this list did not include states where the Labor party had opportunity of having candidates in the field. He said that organization had been perfected in a number of congressional districts for the fall election. He reported that various states were holding state conventions and that nominations for governor and other state officers had been made to date in Ohio, New York and Illinois.

Judge Cole's courtroom was filled to overflowing as a result of a clean-up by Marshal Rogers and Deputy Sheriff Jackson and Kane. The 30 by 40 foot room contained about 50 people. There discharged soldiers who had been in the city Saturday night were discharged by the judge, who wished them well and on their way. By this time, however, the heavy breathing of the other prisoners had consumed all the oxygen in the room and the judge got down to business and the writers of the Columbus enquirer.

John Delmasch, an inmate, pleaded not guilty and received a fine of \$25 and costs and 30 days in jail. The 200 sentence to be remitted if he would leave this glorious climate. The charge was vagrancy.

### Judge Wren's on to "Bump"

Thomas Seaton had the real hard luck story. He was discharged from the army Friday and at once began celebrating by filling up on vanilla extract. He filled a tub, and was arrested Friday night and placed in jail for scoffing. Saturday morning he was before the judge and was turned loose. The humorist feeling in him he was then in the street, and he was again locked up. This morning he had only 810 left, and the court took \$6.25 of that. Thomas was glad at that, because as he told the judge, he was in a hurry to “bump” as Columbus was no place for a discharged soldier with money. It was finally explained to him that “bump” meant to remand, and that accounted for the judge's behavior.

### His Honor Says Time

Another thing in the person of Ed Foster stood up and pleaded not guilty. It was no use. Twenty-five dollars and costs, and fine remitted if Mr. Foster changes his postoffice address.

C. Harris looked to the judge just the same as Thomas Augustine did, and the judge in save figuring gave Harris the same fine.

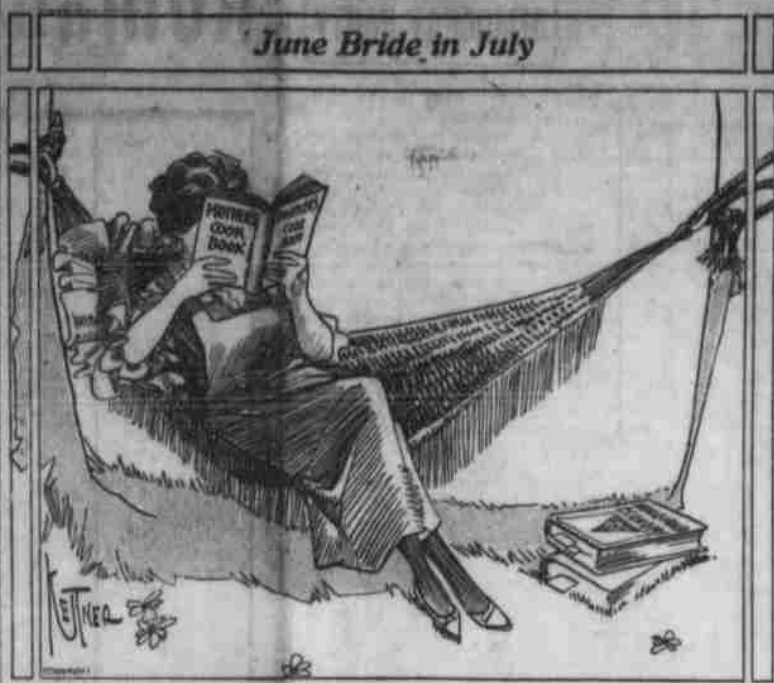

Ed Miles was on the carpet, too. Ed put up a strong case to the judge but it availed nothing until Deputy Kane, who had previously testified that Ed didn't like work and work didn't like Ed, stated that he was in error and that once upon a time Miles actually had six postholes for Charley Burrows. “Well,” said Judge Cole, “diazing that posthole will save you just \$25, for I was going to fine you \$65 and costs. Let it stand at \$35 and costs. Next.”

**Merchant in Trouble.**  
This afternoon at 2 o'clock Alfred McGowan will be placed on trial for selling about five quarts of vanilla extract, which it is claimed he purchased from a local merchant. It is intimated evidence of a perjury nature will be produced.

Marshall Rogers says all interested in the streets and gambling houses who have no visible means of support might as well leave town as it has been agreed by all concerned to “pinch” them on sight.

## 3D PARTY WANT GOVERNMENTAL CHARGE

CHICAGO, Ill., July 12.—(Associated Press.)—The Republican and Democratic parties were denounced as “the right and left wing of the same bird of prey” at the opening of a proposed “third party” national convention here Saturday.

According to the keynote of the convention, called together by the Committee of 48 to adopt a platform and place in the field another set of candidates for presidency and vice-presidency, Alton McCarthy, temporary chairman, charged that the two big parties had evaded permanent domestic issues at a time when what the country needs is “lower taxes and more freedom.”

The abolition of special privilege, McCarthy said, was the issue around which the new party would appeal to the voters in November. He said the party proposed effecting that end through removing the sources from which privilege derives its power.

“To accomplish this purpose,” he declared, “it proposes public ownership of transportation and of the principal basic resources of the country, and declares that all land held out of use for speculation should be forced into use by tax.”

### Years of Secret Slavery

“Consider the actual conditions under which we meet. After years of secret slavery the Republican and Democratic parties came into the open and reveal themselves to themselves and to the nation as nothing but the right wing and the left wing of the same bird of prey. It is no longer possible for any one even to pretend that there is any difference between the two. These two are a word in either of these right wings that might not have been called and immediately enforced by a convention exclusively composed of corporation lawyers and Wall Street bankers. The only difference between these platforms, as some one has remarked, is a difference in the number of words used to say nothing. Considered in the history of civilization they have demonstrated, even in their own adherents, that they are without the vision of statesmanship, the courage of leadership or the conviction of patriotism.”

### Wants War With Mexico

“The Republican bid is loud. It reads out of its councils every man and woman who ever stood for any form of human rights, adopts a platform that evades, equivocates, neutralizes every living issue; paves the way for a war by which, in exchange for the lives and treasures of the people, Mexico, all shall be delivered to the interests; induces the Each-Committee bill over the protests of farmers, workers and informed citizens, and consistently evades its work by nominating as candidate for the presidency of the United States in the year 1930 a proven, steady, wheel horse politician guaranteed to stand without flinching, who learned all the politics he ever learned in the satisfactory and thorough school of Marcus A. Hanna and Joseph B. Foraker, who took in the golden age marked by the standard old scandals. Thus stands the party of Abraham Lincoln in the last days of its decadent faith.”
